

New Student Online Enrollment and Returning Student Registration

If you are enrolling a student new to Sumner County schools, use the New Student Online Enrollment (NSOE) link from sumnerschools.org.

If you are enrolling a student who has been enrolled in Sumner County schools in the past but was not enrolled in the 2020/2021 school year, use the New Student Online Enrollment link from sumnerschools.org.

If you already have students who were enrolled in Sumner County Schools for the 20/21 school year (this includes new kindergarteners if they attended a preschool program at a Sumner County school), log into your Skyward parent portal and go to Returning Student Online Registration. You will also find a New Student Online Enrollment link if you need to enroll a new student in addition to a returning student.

If you will be enrolling a student at a different school than the one the student attended in 20/21 (except for new 6th and 9th graders), please call the new school so your student's information can be transferred to the new school and you can then register your student through Returning Student Online Registration.

If you need assistance with your Skyward portal username and/or password, contact the school your student attended during the 2020/2021 school year.

Be sure as you are working through the NSOE or the Returning Student Registration, that you click the "COMPLETE" button at the end of each section and then the "SUBMIT" button at the end.
